“Plein air” painting, or for group weekends away.

Gabrielle will help you see and experience your favourite place in a new and different way; to leave your every day life behind and deeply relax by accessing the right side of the brain; and learn to play again. Or you could discover a creative bone you may have thought absent, dead or gone!

Classes are structured according to your aims and needs – they can be challenging or just fun, and include drawing and/or painting and demonstrations, advice on technique and idea generation, or constructive comments and suggestions that help you go to the next skill level – always in an encouraging and confidence-enhancing manner creating a relaxing, enjoyable and effective way to learn.

Groups can range from 1 to 12 people and tuition is available at \$500/day for the workshop (10am-4pm), plus \$40 per hour travel plus expenses.

Two day courses are recommended for really activating the creative brain and for quicker learning, whilst the four day intensive courses provide greater depth to launch you to a new level creatively.

Note: We can also arrange appropriate, interesting and beautiful painting locations and details for an extra admin fee of \$250 per course.

Gabrielle's workshop on Abstract Landscapes was wonderful. Gabrielle's teaching was professional, structured and inspiring. Discussions around a range of artist's techniques and their interpretation of the visual landscape provided a point of reference for us to experiment. For me, the workshop provided a new way of interpreting what I see and the start of new journey in my painting... loved it!

Debra, Chatswood

Having attended a number of workshops, I can sincerely state that Gabrielle's method of teaching and relaxed style brought out what looked like the best from all the class. It was a stimulating and instructive three hour session, at the end of which I felt thoroughly exhausted and thoroughly delighted by the experience. I am greatly looking forward to attending another Gabrielle Jones workshop... soon.
